I am a final-year Informatics Engineering student with an educational background in Computer and Network Engineering. I have one year of work experience as a Data Entry Operator at GoTo (Gojek Tokopedia). I have skills in website development, computer network administration, and network routing configuration using Cisco and MikroTik. I am also proficient in Microsoft Office and have basic graphic design skills using Adobe Photoshop and Canva. I am a logical thinker, a good team player, and capable of working under pressure. I am also honest, disciplined, responsible, and committed to continuous learning and professional growth.
